
The Elder Scrolls: Skyrim
Joining
The
DAWNGUARD
by
Angel Mendez - AMM

Welcome to,

Skyrim : Joining The Dawnguard 1.0 Public Beta

Some of our favorite moments were made while playing video games and the games we played or still play will always be in our hearts. We try to make the best of our lives and can feel the change of every moment in time. Life is dynamic and never static so why should our experiences be limited to someone else's imagination or design?

Our favorite games may not be as “fluid” as the new generation or, the game just simply doesn't have the means because of its designed purpose. Regardless, once a game is completed is it time to move on?

With this guide and many others that will follow, I truly hope you'll find hours, days, weeks or even years of roleplaying ideas and experiences. Imagine creating a roleplay that fits so well with the game that it would be so amazing to share with the community. A great replaying experience might bring RIP games back to life, attracting new and returning players back to the game….

Note : I highly recommend reading the entire guide before starting to get the most out of your experiences. You can also use what you learn from this guide and try to adapt it to other games.

Remember : Always share your ideas and guides to the community

Let’s give new life to our favorite games and let the nostalgia sink in!

What is the narrative?

In this roleplaying experience you'll be playing The Elder Scrolls : Skyrim, Dawnguard DLC will be required.

Have you ever wanted to experience what Joining the Dawnguard really means? Ever thought that the whole storyline is lacking and way too fast paced?

Think you could do a better job at leading the fight against the menacing Vampires than Isran, or…. Do you wish to join them?

You'll start out as a recruit for the Dawnguard and work your way up in rank through tasks that are natural and gradually becoming more difficult as you progress. More responsibilities will be bestowed upon you through each promotion and eventually you'll recruit more members, manage resources, jobs and your own personal interests if Isran is dead and you're the highest ranking member.

How would you start your roleplay? If you get infected, will you turn?

Or, say….. Fuck it, let me just start out as a vampire already!

Join a Covenant of Vampires and rise through their bloodlines or carve your betrayal and become the most feared vampire. Turn your new followers into thralls and eventually receive your dark gifts. Will you have what it takes to infest all of Skyrim? Unleash the Dark Eclipse over the world or Kill Harkon for Absolution?....

The choice is completely yours, you can change anything you like in this roleplay at any time.

In addition, with an Ai Chatbot of your choice the Ai will become your personal Game Master (GM) and help manage the entire experience as you play along in the actual video game. You can request the AI to roleplay as a character and engage in a conversation, generate quests, manage promotions etc throughout the roleplay.

Note : Ai Chatbots are currently NOT able to manipulate any aspect of the game for example, adding objects to the game world, adding items to inventory, Adding Dialogue options or game mechanics, etc. Everything in this guide is pure speculation and imagination…. 🤔 💭 🦄

Things to Consider,

This guide assumes that you have Skyrim for PC, can use mods and console commands. If you don't, having a save game file or the Alternate Start mod where you are starting the Dawnguard will be MOST valuable.

It can get tedious but, I think it's still a rewarding experience….

Getting Started,

Before proceeding you should consider setting things up….

Note : You won't be doing any of the dawnguard official quests.

1. Make sure All Dawnguard members are present and spawn any missing members at the inside of Fort Dawnguard location, using Console Commands.
    a. You can ask the GM to make a list of all Dawnguard members and their appropriate ID's for simplicity.
2. Place the Sokco's HQ Marker at the center of the main entrance.
3. Recruit all members into the guild, including Isran.
4. Check your inventory, mods, etc and make all the adjustments you wish to your character and overall game.

5. Save your game through the Console Command and give it a unique name to create a replayable “Master File”....

Once all is set and done, please upload this document file with the Ai Chatbot of your choice. The AI Chatbot should be able to initialize the roleplay and become your personal Game Master. If NOT, simply copy & paste the ‘AI Chat Prompt’ below.

The Ai Chatbot will then provide you with more detailed information including overall rules and character development. The Ai Chatbot will be more than happy to answer any of your questions as well.

The beauty of this prompt is that you can either choose to play the entire roleplay as a just only-text-based game with generated pictures as an option, or follow along in the actual game as you input your decisions….

Note : This roleplaying experience was tested using ONLY the free versions of Chatgpt and Grok. Results may vary, especially when using different models, subscriptions etc.

Ai Chat Prompt

Be my Game Master for Skyrim - Dawnguard DLC. Ask me if I would like to input my own background story or have the Game Master generate one for me.

I plan on roleplaying as a new recruit that has just recently joined the Dawn Guard. I must follow orders and complete tasks from Isran.

Next, generate a military style Dawnguard ranking system with Honor Points. Gradually rank the player up as they progress through the roleplay. Start off slow, for example, hunting for food, gathering firewood, etc. By the middle of the roleplay I should be half way through the ranking system gaining perks like being able to recruit an x amount of potential Vampire Hunters and maintaining Fort Dawnguard by recruiting and sending members to do tasks for simulating resource productions like nourishment, medicine, materials and military.

If at some point I end up being a Vampire and decide NOT to cure myself then I MUST do the following actions below….

1. Save my game.

2. Reinstall and replace Sokco's Guild Starter mod to reset the mod.

3. Start the game again and continue my roleplay.

As a vampire my overall goal is to survive….

1. Find a new home among other vampires.

    a. Rise through the ranks by completing tasks from the other vampires.

2. Or, go at it alone…. Drain the blood of my victims to become more powerful.

    a. Find a lair of my own and start recruiting my own vampires/thralls.

    b. One day I shall be the most powerfulist Master Vampire Lord in all of Skyrim!!!!

3. I can side with Harkon by gaining influence across Skyrim until he wishes to speak with me, or destroy him….

4. Collect enough souls to cast an everlasting eclipse of evil and block the sun at the Ritual Stone altar….
   Note : An amount of my choosing or 10,000 in Total Charge Capacity (TCC) for all the souls I've trapped and a filled Black Soul Gem….
   https://en.m.uesp.net/wiki/Skyrim:Souls#

5. I can use the Better Vampires mod to manage my vampire ranking or have the GM keep track for me as I report my feedings….

My sworn duty as a Dawnguard with high ranking status is as follows….

1. Maintain the fort with supplies and recruits.

2. Keep cities safe from vampire terrors.

3. Search for vampire liars to find clues leading to the most powerful Vampire in all of Skyrim, Harkon….

If during the roleplay Isran dies, then his highest ranking Vampire Hunter will take over, if they die then the next rank will follow. If at the end of the roleplay Isran is still alive then I become Isran's right hand person but if Isran is dead then I take over The entire Dawnguard Guild.

I start my roleplay by entering Fort Dawn Guard and speaking with Isran.

Note : Use ONLY actual items, quests, NPCs, etc that are found within the game and this expansion.

Otherwise, let's get started! 🦇🩸🏰⚰️

End of Chat Prompt

Recommended Mods,

The world would not be the same without these mods, some are deemed necessary while others bring optional enhancements.

⚠️ **Warning :** ⚠️

Using mods, Console Commands or killing NPCs WILL break your game, making achievements, quests and other legitimate stats unattainable…. ALWAYS make sure to back up your saves!!!

Disclaimer : I DO NOT own any of the mods listed in ALL of my guides. They are owned and operated by their respectful Authors and Contributors….

Required Mods : No way in getting around this….

1. **Sokco's Guild Starter :** This mod will allow you to manage Dawnguard members and send them to do tasks. (https://www.nexusmods.com/skyrim/mods/52871)

2. **Unlimited Hostile Encounters :** Gives vampires the ability to spawn even if the main Dawnguard quest hasn't been activated yet. (https://www.nexusmods.com/skyrim/mods/111695)

3. **Better Vampires :** Being a vampire requires a unique overhaul experience that you just can't get with vanilla. (https://www.nexusmods.com/skyrim/mods/9717)

4. **Vampire Kinship :** Vampires won't be hostile to you if you decide to turn into one…. (https://www.nexusmods.com/skyrim/mods/22016)

5. **Follow Me Spell :** Most important for having your Dawnguard members follow and assist you. (https://www.nexusmods.com/skyrim/mods/53295)

Optional Mods : Not required but offers more immersion….

1. **Skyrim Unbound (Alternate Start) :** In case you want to start with a completely new game file. (https://www.nexusmods.com/skyrim/mods/98850)

2. **Immersive Citizens Ai Overhaul :** Makes humans more natural and travel more, more food for the vamps! (https://www.nexusmods.com/skyrim/mods/65013)

3. **Everyone Dies :** No one is safe from your wrath! (https://www.nexusmods.com/skyrim/mods/75446)

4. **Vampire Lords can Loot and Activate :** Don't know why this wasn't available before…. (https://www.nexusmods.com/skyrim/mods/21631)

5. **Realistic Crime Radios :** Witnesses and guards will have a more realistic crime detection distance that does feel as the name states. (https://www.nexusmods.com/skyrim/mods/8078)

6. **Crime Gold Decay :** Lowers your bounty amount as time progresses. (https://www.nexusmods.com/skyrim/mods/51247)

7. **Non-Exploitable Crossbow :** Disables the auto reloading feature for crossbows, it's a prerequisite for the Manual Crossbow Reload mod. (https://www.nexusmods.com/skyrim/mods/94246)

8. **Manual Crossbow Reload :** Makes Crossbowing much more realistic, forcing you to reload before shooting again…. (https://www.nexusmods.com/skyrim/mods/54246)

Tips & Tricks,

After playing through this roleplay myself, I came across a few details that might help you set things up and can get the most out of your roleplaying experience….

1. The BEST way to have your Dawnguard companions follow you with sneak/weapons is….

    a. Have them follow you using Sokco's Guild Starter dialogue setting when you speak to a member.

    b. Then cast the 'follow' spell from the Follow Me Mod.

    c. Simply chat with the companion to dismiss through dialogue and use the 'follow' spell again to dismiss them.

2. You can tweak the frequency and amount of vampires that appear using Unlimited Hostile Encounters mod as your roleplay progresses to mirror your current and dire situations….

    a. **Note :** Make sure to check in the mod's settings to prevent vampires from spawning during daylight hours.

3. **Very important :** Make sure NOT to include the mod Sanguinare Vampiris into your game for it breaks the feeding aspect of Better Vampires.

4. Make sure that Better Vampires loads first before any other vampire or Alternate Start mod.

5. If you still have problems which I have, we may need to reach out to the community for assistance….

6. Remember, you can always change and personalize your roleplaying experience and don't have to follow everything to the teeth. Simply tell the GM and it will adapt to your wants….

7. Sometimes it's best to respond ahead with a few prompts so that you don't spend too much time with the Ai Chatbot.

8. Taking notes is very important, always keep track of things and let the GM know about important information to keep the Chatbot updated.

Final Thoughts,

Our games may be limited but our imagination isn't. In this golden age of technology and AI, one can roleplay in depths that are either too tedious to manage or simply impossible for one person to keep track of. Generating dialogue, investing/trading and other information plus a human mind deciding on the next courses of action is the heart and soul of these roleplays.
